The celebration of World Animal Day unites the animal welfare movement, mobilizing it into a global force to make the world a better place for all animals. He further emphasized that the Govt. of India is working on doubling the income of our farmers through increased production of the crops and livestock and production of more milk by improving the production of the milk and by-products from them. He told that Gomata is the only creature on the earth whose excreta is considered as holy. He further told that Lord Krishna followed the Gopalan and yoga of which yoga is being followed worldwide and one day when we'll again start gopalan in letter and spirit then the whole of the world will start replication as was done in our country earlier when the cow-based economy was our back bone. Hon'ble minister told that such celebrations will spread the message of humane behaviour, kindness and compassion to the animals and sensitize people to be more passionate.

NATIONAL WEBINAR ON COWPATHY AND HUMAN HEALTH ORGANISED

The Board in collaboration with the Society for Immunology and Immunopathology, Department of Veterinary Pathology, College of Veterinary Sciences, GB Pant University of Agriculture and Technology, Uttarkahnd had organised a two-day National Webinar on Cowpathy and Human Health on 15-16, December, 2021. 2021 The webinar was attended

by the concerned scientists from India and abroad and discussed the beneficial effects of Panchgavya (Cowpathy) on human, animal and environmental health. It was a milestone in this area of scientific knowledge with research-oriented documentations which will promote dry cow farming, production of Panchgavya (Cowpathy) products on the basis of scientific information leading to the self-sufficient (Atmnirbhar) gaushalas. This will also provide a boost to the organic farming, reducing the load of chemicals in agriculture and food chain and ultimately leading to better human, soil and environmental health. This webinar helped in exploring the tremendous scope and potential available for utilisation of the total biomass of Cattle and its progeny for the sustainable development in the rural economy thereby preserving the native breeds and extend the scientific methods and innovation for the overall development and supporting the rural economy.

In Ayurvedic system, medicines are prepared either from plants or from animals besides the use of certain metals. The Ayurvedic medicines of animal origin are mainly prepared from indigenous cow products such as urine, dung, milk, curd and ghee. Medicinal use of cow urine has been in practice since time immemorial in India. The Panchgavya (Cowpathy) principle of Ayurved consists of cow urine besides other products like milk, ghee, buttermilk (matha), dung as its main ingredients.

The preliminary studies on immuno-modulation with cow urine generated interest among the scientists. The cow urine distillate was found to increase immunity in mice. It also increases the phagocytic activity of macrophages and secretion of interleukin 1 and 2. Recently, the cow urine has also been found to have its synergistic properties with antibiotics and as bioenhancer. It provided the base for further research and detailed studies on immunomodulatory properties of indigenous cow urine and its comparison with the urine of cross bred and exotic cows, buffaloes and goat using modern biotechnological tools. As per an estimate by WHO, the 20th century antibiotics will no more be wonder drugs. It is an established fact that most of the antibiotic drugs have lost their capacity by way of increased resistance in bacteria. Then in such situation, Panchgavya technology will play a major role in prevention and control of infections in man and animals.

The cattle biodiversity present in India is unparalleled in the world, encompassing a wide spectrum of breeds of indigenous cattle, which is elaborately allied with social, cultural and traditional values of the diversified geographical areas of the country and its inhabitants. Cow has been deemed very holy in Indian culture and any assistance presented to the misregarded as heavenly. As a salutation of gratefulness, cow has been adored as 'Gomata' (mothercow) in India since ancient times. During recent past when emphasis shifted from the absolute contributions of cows to milk production only, our indigenous cattle faced discrimination due to their low milk productivity. India has a very rich reservoir of genetic diversity and possesses some of the well-known breeds of cattle. There are more than 50 well defined breeds of cattle in India apart from several other undefined populations in different parts of the country. Recognized breeds represent about 20% of the total cattle population. These breeds of cattle are the result of thousands of years of selection, evolution and development in the process of domestication suitable to the local agro-climatic conditions. Milch breeds like Sahiwal, Red Sindhi, Gir and Rathi are high milk producers while majority of other cattle breeds belong to draft or dual-purpose category providing small / good amount of milk besides good quality bullocks for draft and other purposes in agriculture. These native breeds exhibit a distinct superiority in utilizing poor quality feed and adapted to withstand heat and show better resistance to tropical diseases.

Cow is Central to our life and bio-diversity. Its progeny and its Panchgavya have wide applications and have the potential for sustainable agriculture production, health and nutrition of humans, production of bio- fertilizers, production of non-conventional energy and for maintaining the bio-diversity of the ecosystem. The are a has tremendous potential which has not been exploited. By the use of chemical fertilizers, pesticides and exploitation of ground water the food grain production levels have been obtained at a higher cost but at the cost of the fertility and health of soil and also the quality of the food produced. The only remedy to rest or ethebalance is organic farming and the cow and its progeny and other animals could provide the solution. The rearing of cow and its progeny is a viable alternative for removing poverty in the rural and semi-urban areas and providing employment opportunities for a long term sustainable economic growth. Grant of Indian and US patents to Panchgavya products (anti-tuberculous, anti-cancer and insecticidal properties) has given the ultimate stamp of approval for Indian science based on cows 'cowpathy'.

Considering the importance of the subject, the two-day webinar was organized on "Cowpathy and Human Health" to have the scientific information from the concerned scientists and compile it in the form of an e- book with the following objectives:

1. To make people aware about the benefits of cowpathy
2. To create awareness among the experts of Indian system of health management
3. To save the indigenous cows from extinction
4. To create awareness among people for rural entrepreneurship

The research documents were compiled and the book "Cowpathy & Human Health" was published for the benefit of the scientific society to explore more and more authentic research-oriented information for the benefit of the human health and need to preserve the native breeds and its importance in holistic medical support for the human kind in the 21st Century ahead.

II. HIGH COURT OF DELHI:

Community Dog Feeding.

12. I. A NO. 4164 OF 2021 IN CIVIL SUIT (OS) NO. 277 OF 2020 - DR. MAYA D CHABLANI VS. RADHA MITTAL & ORS.

The above matter was filed by the plaintiff to restrain the defendant from feeding the stray dogs near the entrance/exit of the suit property. The above dispute was amicably settled between the parties with the help of Amicus Curiae Pragyan Sharma and AWBI. However, Amicus Curiae, Counsel for the Animal Welfare Board of India, Additional Standing Counsel for GNCTD and Counsels for both the parties urged before the High Court to lay down the guidelines with respect to the feeding of stray dogs.

Accordingly, the Hon'ble High Court of Delhi came out with a very significant ruling and issued guidelines with regard to the feeding of stray dogs and directions for their welfare. The Court observed that the Animals have a right under the law to be treated with compassion, respect and dignity. Animals are sentient creatures with intrinsic value. Therefore, the protection of such beings is the moral responsibility of each and every citizen including governmental and non-governmental organisations. The community dogs (stray/street dogs) have the right to food and citizens have the right to feed community dogs but in exercising of this right, care and caution should be taken to ensure that it does not impinge upon the rights of others or cause any harm, hindrance, harassment and nuisance to other individuals or members of the society. Some of the main directions given in the judgement are reproduced as follows:

"....34. The AWBI and Resident Welfare Associations or Municipal Corporation (in case RWA is not available) while determining the designated areas" shall ensure that the said areas so designated, are not frequented, or less frequented, and sparingly used by the general public and residents. This

criterion shall however not be used as an excuse by the Resident Welfare Associations or Municipal Corporation (in case RWA is not available) to avoid demarcating certain areas as „designated areas“ when there exists a demand or need for such demarcation. In such case, the decision of the AWBI shall be final and binding on the RWA or the Municipal Corporation, as the case may be.

35. AWBI and Resident Welfare Associations or Municipal Corporation (in case RWA is not available) while determining the designated areas“ – shall also determine „suitable time“ for care-givers or feeder to feed the community dogs which may ensure least inconvenience to the residents of the area. The „suitable time“ shall be in two slots – one in the morning and one in the evening or night for a minimum of 2 hours each.

36. It shall be the duty and responsibility of the RWA or Municipal Corporation and all Government authorities including law enforcement authorities like Police to provide all assistance and ensure that no hinderance is caused to the caregivers or feeders of community dogs. It shall be the duty and responsibility of the Government officers particularly the jurisdictional SHO to ensure that peace and harmony is maintained amongst the residents, care-givers and community dog feeders. The SHO, shall be duly bound and ensure registration of appropriate proceedings under law on receiving any information of any violation or in case any RWA or any resident of any colony tries or seeks to restrain or harass any care-giver or community dog feeder from feeding community dogs in the manner specified

.... 39. It shall be the duty and obligation of every Resident Welfare Association or Municipal Corporation (in case RWA is not available), to ensure that every community dog in every area has access to food and water in the absence of caregivers or community dog feeders in the said area.

40. The AWBI shall ensure that every Resident Welfare Association or Municipal Corporation (in case RWA is not available), shall have an Animal Welfare Committee, which shall be responsible for ensuring compliance of the provisions of the PCA Act and ensure harmony and ease of communication between caregivers, feeders or animal lovers and other residents.

41. In case, any resident(s) or the RWA has any grievance with regard to any act of caregivers and feeders, in relation to feeding of community dogs, the said resident(s), shall, at the first instance seek redressal of their grievance through a process of dialogue and discussion through the Animal Welfare Committee failing which the said issue may be brought to the notice of the

AWBI through the RWA. The AWBI shall make best efforts to ensure resolution of the issue within 15 days of the said issue being brought to its notice. This Court is of the view that it would be appropriate to constitute a Committee to implement these Guidelines. This Court hereby constitutes the Implementation Committee which shall comprise of the following members:

- (i) The Director, Animal Husbandry Department or his nominee.
- (ii) One Senior Officer to be nominated by all the Municipal Corporations.
- (iii) One Senior Officer to be nominated by Delhi Cantonment Board.
- (iv) One Senior Officer to be nominated by Animal Welfare Board of India.
- (v) Ms. Nandita Rao, Additional Standing Counsel, Govt. of NCT of Delhi as Convenor.
- (vi) Ms. Manisha T. Karia, Advocate for Animal Welfare Board of India.
- (vii) Mr. Pragyansh Sharma, Advocate”

Further, the High Court also stated that the RWA or Municipal Corporation and all Government authorities including enforcement authorities provide all assistance and ensure that no hindrance is caused to the caregivers or feeders of community dogs. The Jurisdictional SHO to ensure that peace and harmony are maintained amongst the residents, caregivers and community dog feeders and there is no harassment to any caregiver or community dog feeder from feeding community dogs in the manner specified. Also, the RWA to ensure that every community dog in every area has access to food and water in the absence of caregivers or community dog feeders.

The High Court directed that the above decision be sent to Delhi Judicial Academy to sensitise the judges about the directions laid down by this Court. The Matter was accordingly disposed.

The above petitions were filed in the High Court of Delhi to rescue and rehabilitate animals from Circuses which were unable to provide due care and feed

to the animals during the pandemic and to notify the final Performing Animals Registration Rule, 2018, which completely prohibits the use of animals in circuses.

The Hon'ble High Court of Delhi passed several directions to the concern authorities and recently in the year 2021-22, the Hon'ble High Court vide its order dated 29.11.2021 noted there was a non-compliance with our directions passed earlier and the High Court is concerned with the welfare of performing animals kept by various circuses within India, who have suffered on account of the pandemic. Lack of care and attention to the captive and performing animals can prove fatal for them. Thus, the Hon'ble High Court directed that AWBI shall file an affidavit disclosing the whereabouts of all the performing animals kept in various circuses through the India before the next date of hearing. The petitions are presently pending before the Hon'ble High court of Delhi.

15. WRIT PETITION (C) No. 6405 of 2018 – PETA Vs. ASIAD CIRCUS & ORS.

The PETA, India had filed the above writ petition in the Hon'ble High Court of Delhi for the release of Hippopotamus from the Asiad Circus and to transfer it back to its parent in Sanjay Gandhi National Park in Patna. The AWBI had already taken necessary steps in regard to the above case and in reply to the letter dated 9-4/2005/PCA dated 23.11.2017, the Ministry of Environment, Forest and Climate change vide their letter dated 07.12.2017 has approved the temporary housing of the hippopotamus has to be National Zoological Park, New Delhi.

The Hon'ble High Court on 15.04.2021 noted that as per the direction dated 22.01.2021 of the Hon'ble High Court of Delhi the inspection of the facility wherein the Hippo *Chotu* was kept have been conducted and the AWBI and they have filed an affidavit with a detailed report of health condition, medical condition and facilities provided to the Hippo *Chotu* with photographs.

The matter was disposed off and relevant para of the judgement are reproduced as under:

“.....“Further to order dated 17th February, 2021, an affidavit has been filed by the Animal Welfare Board of India (hereinafter ‘AWB’). After inspecting the premises of M/s Radhe Krishna Temple Elephant Welfare Trust (hereinafter, ‘Trust’), the AWB has expressed complete satisfaction in the manner in which the Hippopotamus is being kept in the said facility, in terms of its living condition, food etc. The AWB has also confirmed that all the facilities and minimum standards are being completely taken care of. Accordingly, as per the AWB, the Trust may continue the life-long care of the Hippopotamus...”

..... A perusal of the affidavit filed by the AWB shows that there is complete satisfaction recorded as to the condition of the facility where Chotu is housed and the manner in which he is being taken care of. It is heartening for this Court to learn that such a facility with good living conditions and high standards is being run by the Trust.

The AWB has in fact submitted that the Trust be permitted to provide ‘life long care’. In view of the satisfaction report of the inspecting committee, submitted by way of affidavit by the AWB, it is directed that the Trust shall have life-long care of the Hippopotamus – Chotu, subject to the condition that he shall be treated with proper

care and his living facilities shall be maintained as per the standards recorded in the affidavit of the AWB.

..... Considering the averments in the affidavit and the submissions made before Court, as also the fact that the Hippopotamus has now been moved to a facility where he is being taken care of, the non-bailable warrants against Mr. Riyazuddin are discharged. No further orders are called for. With these observations, the present petition, along with all pending applications, is disposed of.”

III. HIGH COURT OF TAMIL NADU:

20. **WRIT PETITION NO. 12671 OF 2021- ANTONY CLEMENT RUBIN VS. STATE OF TAMIL NADU & ORS.**

The above petition was filed in regard to the ABC of the Dogs in the State of Tamil Nadu and against the practice of giving the tender to the highest bidding instead of considering the well-being and handling of the dogs as the foremost requirement.

The Hon'ble High Court of Madras heard the matter on 16.06.2021, wherein in consideration of the arguments of the petition, the court observed that the only direction that may be issued is for the fourth respondent to ensure that the highest bidder for the dog has the resources and infrastructure to treat the dog in a humane manner and as is required in terms of the statute. There is no doubt that the fourth respondent will ensure the well-being of the dog before handing over the dog to the purchaser. Thus, the W.P.No.12671 of 2021 is disposed of with a request to the petitioner to forward a copy of this order to the fourth respondent as expeditiously as possible. There will be no order as to costs.

Accordingly, the matter was disposed off.

21. WRIT PETITION NO. 2287 OF 2021- PEOPLE FOR CATTLE IN INDIA VS. ANIMAL WELFARE BOARD OF INDIA & ANR.

The People for Cattle in India filed the above writ petition in the interest of the stray dogs confined inside the camps of IIT Madras in violation of Animal Birth Control Rules,2001 and the Hon'ble Supreme Court of India Judgement in SLP 691 of 2009. Further, it was prayed to take necessary action against the management of IIT Madras for violating Section 11 of the Prevention of Cruelty to Animals Act,1960 and Section 7(3) of the Animal Birth Control (Dogs) Rules,2001 and to take appropriate steps to ascertain the conditions in which the dogs are kept and ensure that they are sent back to their living environment.

The Hon'ble High Court on 09.12.2021, observed that according to IIT, every dog on its campus is micro-chipped and three separate enclosures have been provided since some of the dogs are aggressive and impede movement within the campus and sometimes tend to threaten students. It is also possible, as the Joint Committee report suggests, that sheer ennui may result in aggressive behaviour or a large number of dogs may also result in aggression. It is necessary that the number of dogs at the IIT campus is reduced from its present level of about 100, as the IIT claims or about 120 as the State agencies suggest. There could be a few dogs and, given the size of the campus and dogs being traditionally present, the number may be reduced to closer to 50, since there are deer and black bucks also on the campus. Since the petitioner is obviously an organisation interested in animals and their ethical treatment, the petitioner, along with representatives of the State authorities, including the Corporation, Animal Husbandry Department and the Animal Welfare Board of India, should decide on a course of action that may be followed both to ensure that IIT is rid of the menace of too many dogs on its campus and the ultimate treatment of the dogs taken from the campus, whether by way of adoption or placement at some centres run by NGOs or the like. The State should also ensure that IIT does not become a dumping ground for abandoned dogs and some measures in such regard need to be put in place. The new arrivals at the IIT may be handed over to the Corporation and the Corporation should deal with such dogs in an ethical and humane manner.

The Hon'ble High Court on 09.12.2021, after hearing the argument at length, requested all the lawyers to make their suggestions within the framework of the Rules as to how they can take care of stray dogs in the best possible manner and at the same time, to evolve a trial for sterilization through the Municipal Corporation. The suggestions shall incorporate all conditions to be taken note of while giving effect to the Rules through the Municipal Corporation. Till the next date of hearing,

the Municipal Corporation, Chennai was directed to visit the Indian Institute of Technology Campus where the dogs are kept, so that they can take care of those dogs and at the same time, release them if they are fit for appropriate areas without objection of the residents of that area or elsewhere, with proper monitoring of those dogs. Appropriate treatment shall be given to the dogs, which are not in fit condition or have a poor medical condition, in the veterinary hospital under the supervision of the Municipal Corporation and after they are declared to be fit after the treatment, a decision shall be taken to set them free or release again to the appropriate area where they may survive without any difficulty. The learned Standing Counsel appearing for the Indian Institute of Technology, Madras has intimated that now, there are 22 dogs under observation and rehabilitation. Those 22 dogs shall be set free or taken care of by the Municipal Corporation.

The Hon'ble High Court vide its order dated 21.01.2022 directs the counsel for the IIT, Madras may submit the compilation of the pleadings made by different parties with a copy to counsel for the petitioner and the respondents. Learned counsel for the parties and the NGO, appearing in person, are directed to come out with proper suggestions to regulate not only the stray dogs but the pet animals. The suggestions can be submitted in the form of an affidavit or a document, which would be considered on the next date of hearing. Accordingly, the scope of the writ petition is enlarged to deal with the affairs of stray dogs as well as pet animals. The petitions are pending the final hearing.

Also, several other persons impleaded themselves as the additional fourth to sixth respondents in the writ petition, faced with similar directives from the office bearers of their respective resident welfare associations.

The Hon'ble High Court vide its Judgement dated 02.11.2021 states as follows:

“we allow this writ petition by declaring that clauses in any bye-law or agreement, that have the effect of absolutely prohibiting a person from keeping a pet of his/her choice in a residential unit occupied by that person, should be treated as void and unenforceable in law. Consequently, resident owners' associations and resident welfare associations shall desist from putting up notice boards and signposts prohibiting the keeping or entry of pets in their respective premises. This declaration shall be seen as one operating in rem and this judgment as one covered by Section 41 of the Indian Evidence Act, 1872. The Registry shall send a copy of this judgment to the Chief Secretary of the State who shall, in turn, take immediate steps to issue necessary instructions to the newly re-constituted State Animal Welfare Board, the administrative departments of the State, and to its law

enforcement agencies so that complaints brought to their notice by the citizenry, as regards infringement of the rights declared in this judgment receive immediate attention and resolution. VIII. HIGH COURT OF KARNATAKA:

28. WRIT PETITION NO. 10530 of 2021 - M/S. PEOPLE FOR ANIMAL, MYSURU Vs. THE STATE OF KARNATAKA & OTHERS

The above petition was filed in regard to the bullock cart races in the district of Mandya in the State of Karnataka but commonly organised in the outskirts of Karekura Village, Srirangatan wherein the Bulls are made to travel on road for more than 100 km. In the scorching heat from the nearby district in Chikkamangluru, Mangaluru, Hassan. Mandya etc. in violation of the PCA Act, 1960 and AWBI Vs. A. Nagraja.

The Hon'ble High court on 01.09.2021 observed that the State of Karnataka has filed a reply and it has been stated in the affidavit that the Prevention of Cruelty to Animals (Karnataka Second Amendment) Act, 2017 (hereinafter referred to as 'Amendment Act of 2017' for short) was amended and as per Sections 2 and 28A of the Amendment Act of 2017, bullock cart race is now permissible in the State of Karnataka and the same does not amount to an offence under the Amendment Act of 2017. It has also been stated that it is a custom in the State of Karnataka and all the necessary steps are being taken by the State of Karnataka to ensure that animals are not subjected to cruelty. It has also been stated that permission was granted in respect of race which had to be conducted on 07.03.2021. However, keeping in view the Covid-19 pandemic and other factors, the permission was withdrawn.

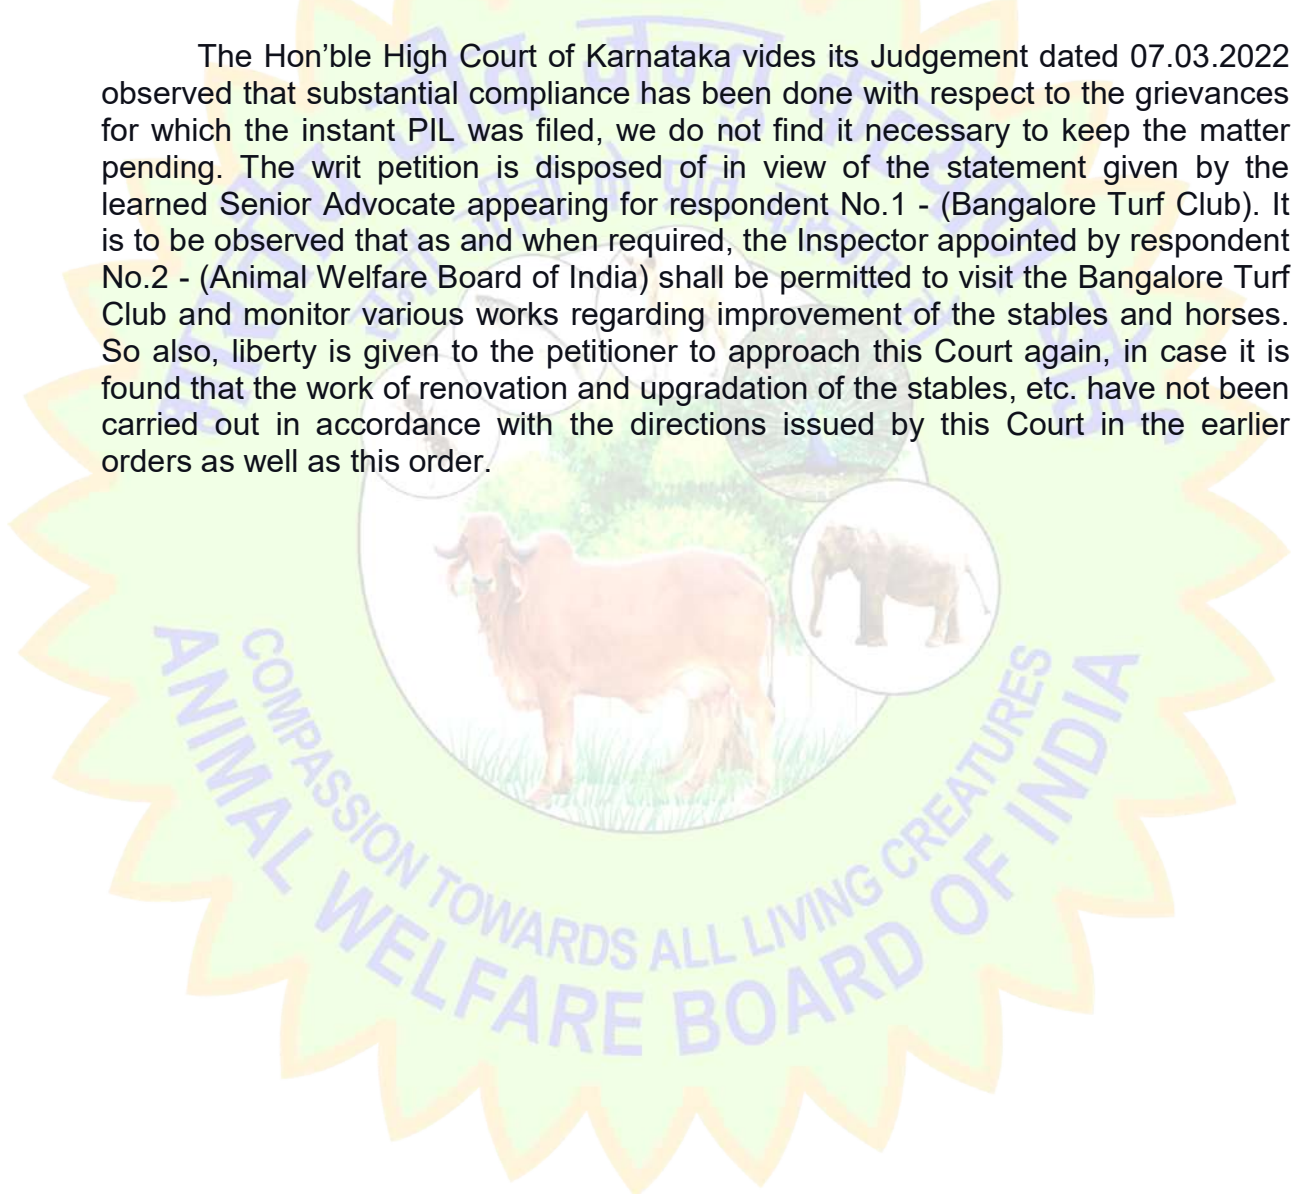

Further, it was observed by the Hon'ble High Court that the Amendment Act of 2017 permits the holding of the bullock cart races with a view to following and promoting tradition and culture involving the bullocks. The constitutional validity of the Amendment Act of 2017 is not under challenge in the present public interest litigation. Also, the Hon'ble Supreme Court, while granting permission to conduct bullock/bullock cart races in the State of Maharashtra, has laid down certain parameters. The parameters imposed by the Hon'ble Supreme Court in the case of the bullock/bullock cart race are required to be enforced in the State of Karnataka also. Therefore, this Court is of the opinion that the State of Karnataka can certainly accord permission for holding bullock cart races subject to the aforesaid terms and conditions which have been laid down by the Hon'ble Supreme Court in the case of SHIVAJIRAO ADHALRAO PATIL Vs. STATE OF MAHARASTRA, which was the case clubbed along with Jallikattu's case (supra), no further orders are required as the said conditions already in existence under the statutory provisions in the State of Karnataka for grant of permission for holding the bullock cart race. CONCLUSION

The Animal Welfare Board of India has completed 59 years of service in the promotion of animal welfare and prevention of cruelty to animals. During the year, the activities of the Board continued to extend throughout the country. The Board has conducted various programs to bring about awareness on animal welfare laws. The Board has been continuously engaged to save animals from cruelties meted out to them and to provide necessary help when it is found in distress through its recognized Animal Welfare Organizations / representatives. The number of AWBI recognized Animal Welfare Organisations has been increased and thus saving more animals from the cruelties being inflicted to them. The Board has been trying at its level best to address the issues pertaining to man-animal conflicts in a humane manner and standing forth to creating awareness about their co-existence. Lack of effective enforcement of the laws against cruelties inflicted to animals still needs more attention. The establishment of effective and functional Societies for Prevention of Cruelty to Animals (SPCAs) in each and every district of the country and robust State Animal Welfare Boards (SAWBs) in each state are the need of the hour and various correspondence are made with the officials of the State and District authorities.

The complaints being received by the Board are responded on priority by issuing correspondence to the authorities concerned or forwarded to the law enforcement agencies to take action and to enforce the law and bring justice to the animals. Prompt and effective responses of the enforcement agencies of the State Governments, Local bodies, District Collectors and Secretaries to Government Department of Animal Husbandry, will definitely ensure that cruelties to animals will decline. The Board has utilized the grants-in-aid made available by the Government for providing welfare measures to the animals sheltered in the organizations. We have no doubt that with higher allocation of grants to the Board through effective utilization of fund and proper monitoring of schemes will help the Animal Welfare Organization to work more effectively for welfare of animals. The spreading of the message of love and compassion towards the animal kingdom is bound to be more expansive and effective. Thus, our animal friends can also live happily on the planet earth. Establishment of more and more animal welfare organizations will ensure proper care and management of stray animals. The AWOs should try and work towards self reliance and should become viable so that they need not to be dependent on the grant-in-aids from the Govt.

Separate Audit Report of the Comptroller & Auditor General of India on the Accounts of the Animal Welfare Board of India, Ballabgarh for the year ended 31 March, 2022

We have audited the Balance Sheet of the Animal Welfare Board of India, Ballabgarh, as on 31 March 2022, Income & Expenditure Account and Receipts & Payments Account for the year ended on that date under Section 19 (2) of the Comptroller & Auditor General's (Duties, Powers & Conditions of Service) Act, 1971 read together with the Rule 24(2) of the Animal Welfare Board (Administration) Rules 1962.
